

# Take control of your waste!

Agritel supplies crushing and baling machines for a wide variety of waste material. Baled waste is easier to handle, cheaper to transport, and readily accepted by recyclers.

**Used as part of a simple waste management regime, Ag-mac machines help increase efficiency, improve recycling rates and dramatically reduce the cost of waste disposal.**

## Ag-mac V450HD Heavy-duty Baler

A heavy-duty machine with a long compaction stroke and press force of 25 tonnes, the Ag-mac V450HD converts empty containers such as food cans and plastic bottles (without caps) into dense, space-saving bales, reducing volume by as much as 90%.

It can also bale cardboard, plastic, paper, textiles, computer casings and other robust materials.

### Features

- Makes bales weighing up to 450kg, depending on material
- Extended cylinders produce a more compact bale
- Retaining claws reduce spring-back
- Bales can be tied off with wires or polyester strapping
- Fully-automated ejector for easy removal of the finished bale
- Robustly built, safe and simple to operate
- Supplied with 12 months' warranty

### Optional Extras

- 220-240V single-phase power supply
- Unique patented former creates slots for forklift prongs in base of bale, eliminating the need for pallets when lifting, stacking and transporting bales.

Baled plastic drinks bottles

Technical Specifications	Ag-mac V450 HD
Press force (max)	25 tonne
Loading aperture (HxW)	680 x 1200mm
Bale weight (maximum)	450kg
Bale dimensions (HxWxD)	1000 x 1200 x 800mm
Cycle time	40 seconds
Noise level	75 decibels
Machine weight	1400kg
Power supply	11kW 32A 380-400V 3-phase
Dimensions (HxWxD)	3343 x 1781 x 1196mm
