

# Take control of your waste!

Agritel supplies crushing and baling machines for a wide variety of waste material. Compacted waste is easier to handle, cheaper to transport, and widely accepted by recyclers.

**Used as part of a simple waste management regime, Ag-mac machines help increase efficiency, improve recycling rates and dramatically reduce the cost of waste disposal.**

Contact our friendly and knowledgeable staff to find out how an Ag-mac machine can benefit your business!

## Ag-mac BP21 Bag Press

**The Ag-mac BP21 reduces waste to one tenth of its original volume, maximising bin utilisation and reducing disposal costs.**

Bagged waste is loaded into the press and, after crushing, tied off cleanly and securely in a polythene liner.

The BP21 is ideal for garage forecourts, retail outlets, offices and small hospitality establishments. It is mounted on wheels and runs from a standard 13A power supply, making it easy to locate wherever it's needed.

- Suitable for both wet and dry kitchen or general waste
- Maximises bin utilisation, reducing frequency of emptying

### Features

- Up to 10:1 compaction ratio (depending on material)
- Low-level top-loading crush chamber
- Two-handed operation for safety
- Chamber opens at front for easy removal of compacted waste
- Mounted on wheels, making it simple to relocate
- 12-month manufacturer's warranty

### Optional Extras

- Galvanised finish
- Automatic compaction cycles

Technical Specification	Ag-mac BP21 Bag Press
Compaction ratio (max)	10:1
Press force (max)	3 tonnes
Machine weight	325kg
Bale dimensions (HxWxD)	175 x 520 x 1000mm
Noise level	70 decibels
Power supply	1.5kW 13A 220-230V
Dimensions (HxWxD)	1861 x 1200 x 630mm
