

Take control of your waste!

Agritel supplies crushing and baling machines for a wide variety of waste material. Baled waste is easier to handle, cheaper to transport, and readily accepted by recyclers.

Used as part of a simple waste management regime, Ag-mac machines help increase efficiency, improve recycling rates and dramatically reduce the cost of waste disposal.

Contact our friendly and knowledgeable staff to find out how an Ag-mac machine can benefit your business!

Ag-mac BP40 Plastic Bottle Baler

The Ag-mac BP40 reduces space-hungry waste plastic bottles to neat, compact bales.

Baling bottles couldn't be easier: a unique piercing mechanism eliminates the need to remove bottle caps and the twin-chamber design optimises loading and crushing efficiency. A tank in the base of the machine collects any residual liquid, and a trolley is supplied for moving the finished bales.

- Twin chambers: load one while the other is compacting
- No need to remove bottle caps before baling

Features

- High compaction ratio
- Top-loading baler, perfect for locations with height restrictions
- Roller-guided head for easy movement between the two chambers
- 30-litre waste liquid collection tank with tap connection
- Bale trolley included
- 12-month manufacturer's warranty

Technical Specifications	Ag-mac BP40
Press force (max)	8 tonnes
Loading aperture (WxD)	500 x 700mm
Bale weight (max)	40kg
Bale dimensions (HxWxD)	675 x 700 x 500mm
Cycle time	35 seconds
Noise level	72 decibels
Machine weight	562kg
Power supply	2.2kW 16A 220-240V
Dimensions (HxWxD)	2342 x 2050 x 851mm
